Dear Mindeye Customer,
Last week, Websurf Internet purchased Mindeye Communications. Starting next month we will be your ISP.

This new relationship has many benefits. First, you receive a free download of our exclusive VirusWatch 9.0 **antivirus software** to protect your computer. We're also building all-new T-3 lines to accommodate the new customers. This means greater bandwidth for **broadband** and T-1 users. Unfortunately, we're discontinuing **dial-up** service. But we are **upgrading to DSL**. Turn in your old **modem** to us to receive a new DSL modem free of charge.

You also receive our award-winning technical support. We'll help you set up your **wireless router** to bring **Wi-Fi** to your household. We can even help recover your password if you forget.

You'll also have access to WebSurf **hotspots**. You can find them at selected airports, restaurants and coffee shops. All you need is a valid WebSurf account.

We look forward to providing you with the world's best Internet service.

Sincerely,
Gina Matson
